

	Document ID	Issue Date	Title	Current OR
1	US 6874148 B1	20050329	System and method for exporting a graphical program to a shared library	719/328
2	US 6804511 B1	20041012	Radio controlling apparatus	455/420
3	US 6801881 B1	20041005	Method for utilizing waveform relaxation in computer-based simulation models	703/2
4	US 6715139 B1	20040330	System and method for providing and displaying debugging information of a graphical program on a first computer during execution of the graphical program on a second computer	717/125
5	US 6690981 B1	20040210	System and method for encapsulating user interface code for a graphical program	700/83
6	US 6467079 B1	20021015	Report program language source code translation to object-oriented language source code which emulates report program language behavior	717/108
7	US 6463470 B1	20021008	Method and apparatus of storing policies for policy-based management of quality of service treatments of network data traffic flows	709/223
8	US 6442663 B1	20020827	Data collection and restoration for homogeneous or heterogeneous process migration	711/202

	Document ID	Issue Date	Title	Current OR
9	US 6292830 B1	20010918	System for optimizing interaction among agents acting on multiple levels	709/224
10	US 6282699 B1	20010828	Code node for a graphical programming system which invokes execution of textual code	717/109
11	US 6271875 B1	20010807	Three-dimensional image processing apparatus and three-dimensional image processing method	348/42
12	US 6268853 B1	20010731	Data structure for use in enterprise controls	700/83
13	US 6243857 B1	20010605	Windows-based flowcharting and code generation system	717/111
14	US 6226679 B1	20010501	Common management information protocol (CMIP) agent registration methods systems and computer program products	709/230
15	US 6173440 B1	20010109	Method and apparatus for debugging, verifying and validating computer software	717/130
16	US 6173438 B1	20010109	Embedded graphical programming system	717/109
17	US 6147774 A	20001114	Multifunction interface card for interfacing a facsimile machine, secure modem, and a personal computer	358/442
18	US 6138270 A	20001024	System, method and memory medium for detecting differences between graphical programs	717/125

	Document ID	Issue Date	Title	Current OR
19	US 6099579 A	20000808	Method and apparatus for checking asynchronous HDL circuit designs	716/6
20	US 6053951 A	20000425	Man/machine interface graphical code generation wizard for automatically creating MMI graphical programs	717/109
21	US 5974254 A	19991026	Method for detecting differences between graphical programs	717/109
22	US 5971591 A	19991026	Process detection system for plasma process	700/220
23	US 5966532 A	19991012	Graphical code generation wizard for automatically creating graphical programs	717/105
24	US 5940617 A	19990817	Debugger for controlling execution of software installed in object to be controlled on the basis of state transition model, debugging method thereof, record medium thereof, and method for correlating function specifications and code addresses	717/128
25	US 5920716 A	19990706	Compiling a predicated code with direct analysis of the predicated code	717/141
26	US 5920490 A	19990706	Integrated circuit test stimulus verification and vector extraction system	716/2

	Document ID	Issue Date	Title	Current OR
27	US 5894576 A	19990413	Method and apparatus for instruction scheduling to reduce negative effects of compensation code	717/156
28	US 5857192 A	19990105	Quality control system employing bi-directional messaging using empty files	707/200
29	US 5812855 A	19980922	System and method for constraint propagation cloning for unknown edges in IPA	717/157
30	US 5812394 A	19980922	Object-oriented computer program, system, and method for developing control schemes for facilities	700/17
31	US 5764958 A	19980609	Method and apparatus for creating dynamic roles with a system object model	719/315
32	US 5729744 A	19980317	Method and system of enhanced versioning control of objects in a data processing system using change control information which includes reasons for changes	707/203
33	US 5706405 A	19980106	System and method for the design of software systems using a knowledge base	706/45
34	US 5692195 A	19971125	Parent class shadowing	719/316
35	US 5638489 A	19970610	Method and apparatus for pattern recognition employing the Hidden Markov Model	704/256

	Document ID	Issue Date	Title	Current OR
36	US 5627747 A	19970506	System for developing and operating an active sound and vibration control system	700/83
37	US 5608841 A	19970304	Method and apparatus for pattern recognition employing the hidden Markov model	704/256
38	US 5608840 A	19970304	Method and apparatus for pattern recognition employing the hidden markov model	704/236
39	US 5539862 A	19960723	System and method for the design of software system using a knowledge base	706/45
40	US 5493507 A	19960220	Digital circuit design assist system for designing hardware units and software units in a desired digital circuit, and method thereof	703/14
41	US 5481716 A	19960102	Process for machine generation of a control process program	717/106
42	US 5448740 A	19950905	Generation of a user interface code from a corresponding declarative language program	717/155
43	US 5432935 A	19950711	Emulation for executing a second language application program on a computer having a first language operating system	719/320
44	US 5347461 A	19940913	Tool travel path creating method	700/187

	Document ID	Issue Date	Title	Current OR
45	US 5269014 A	19931207	Automatic programming system with design review capabilities	703/22
46	US 4901025 A	19900213	Fault diagnosis system for electronic devices on automobiles	324/537
47	US 4802116 A	19890131	Programmed controller	703/23
48	US 4782444 A	19881101	Compilation using two-colored pebbling register allocation method such that spill code amount is invariant with basic block's textual ordering	717/153
49	US 4633490 A	19861230	Symmetrical optimized adaptive data compression/transfer/decompression system	375/240
